

IN THE CLAIMS:

✓
Cancel claims 1-14 without prejudice or disclaimer.

✓
Add new claims 15-32 as follows:

Sub C1
15. A device comprising:
a display unit;
means for displaying a first screen for selecting a display language on the display unit;
and
means for displaying a second screen with an option on the display unit, the option having a same appearance regardless of the display language currently selected, wherein the first screen is displayed when the option is designated on the second screen.

16. A device according to claim 15, wherein the option is indicated in a predetermined language regardless of the display language currently selected.

17. A device according to claim 16, wherein the predetermined language is English.

18. A device according to claim 15, wherein the option is indicated by a predetermined symbol regardless of the display language currently selected.

19. A device according to claim 15, wherein the second screen provides plural options for various device settings.

Sub B1
20. A device comprising:
a display unit;
means for displaying a first screen on the display unit for selecting a display language;
and
means for displaying a plurality of second screens on the display unit, each of which has

B1
an option, wherein the first screen is displayed when the option is designated on any one of the second screens.

21. A device according to claim 20, wherein the option has a same appearance regardless of the display language currently selected.

22. A device according to claim 21, wherein the option is indicated in a predetermined language regardless of the display language currently selected.

23. A device according to claim 22, wherein the predetermined language is English.

24. A device according to claim 21, wherein the option is indicated by a predetermined symbol regardless of the display language currently selected.

25. A device according to claim 20, wherein the second screen provides plural options for various device settings.

Sub B2
26. A device comprising:

a display unit;

means for displaying a screen on the display unit for selecting a display language; and

a dedicated key switch provided outside of the display unit, wherein the display language selection screen is displayed on the display unit when the dedicated key switch is operated.

Sub C1
27. A display device comprising:

a display unit which displays a first screen for selecting a display language and a second screen with an option, wherein the first screen is displayed when the option is designated; and

a control unit which controls the option to appear the same regardless of the display language currently selected.

28. A display device according to claim 27, wherein the option is indicated in a predetermined language regardless of the display language currently selected.

29. A display device according to claim 27, wherein the option is indicated by a predetermined symbol regardless of the display language currently selected.

30. A method of display comprising:

displaying a first screen with an option in a first display language;

displaying a second screen for selecting a display language when the option is designated on the first screen;

setting the selected language through the second screen as a second display language, the second display language being different from the first display language; and

displaying a third screen with the option in the second display language, said option having a same appearance as in the first screen.

31. A display device according to claim 30, wherein the option is indicated in a predetermined language regardless of the display language currently selected.

32. A display device according to claim 30, wherein the option is indicated by a predetermined symbol regardless of the display language currently selected.
